TOTAL RAINFALL OF SEASON NOW AT 18.37 INCHES

Many Motorists Hurry to Hills for Snow Battles; North Gets White Blanket

Sunshine and snowfall—such is the paradox of southern California!

Rainfall totaling 2.59 inches for the storm starting early Sunday morning has brought the season's total to 18.37 inches, a record for five years. Last year it was only 7.02 at the same date, but in the season of 1915-16, the total was 25.29.

There is plenty of time to overcome that figure between now and the first of May, however. The weather man says rain tonight and probably Tuesday.

Mount Verdugo, as well as Mount Wilson and other peaks, was snow capped and crowds of merry motorists passed through Glendale with plenty of material for a regular eastern winter party. At the Elk club last night a snowball battle proved great fun for the younger members.

Many Visit Snow Fields

Practically everyone sportively inclined hied to the hills in their motor cars yesterday to make snowmen and get the fresh ozone that accompanies a storm of this kind.

Little damage was done in Glendale by the flood waters, although crews are kept busy along the Verdugo wash and cleaning the streets.

The telephone and street car service throughout southern California is slightly crippled and gas pressure is reported low in certain sections of Los Angeles.

The torrents of rain yesterday morning caused slides of embankments along the Glendale-Los Angeles Pacific Electric line between Ivanhoe and Edendale and the section crew was kept busy until late in the night repairing the damage.

Little delay was noted in the service, although cars were turned back yesterday morning at Sixth and Main streets because of high water flooding the terminal on Los Angeles street.

FRED DEAL WEARS THREE STARS RESULT OF HIS 25 YEARS IN PHONE SERVICE

Fred Deal, manager of the Pacific Telephone & Telegraph Company office here, is now wearing three stars on his service insignia. All of which mean that he has done twenty-five years' time in telephone work, nine in the east and sixteen in southern California.

"I have five more to go until retirement, but I feel as though I have twenty-five years more active service," said the manager of the rapidly increasing exchange. Glendale showed a growth of 21 per cent in telephone statistics during the past year.

D. McDill.

One of the interesting features of the occasion was a mock wedding, with Miss Anita Fletcher as the bride, Miss "Bill" Cole as the bridegroom, Miss Marjory Smith as the minister, and Miss Irmal Miller and Miss Mildred Elliott as the attendants. The gifts were then presented to the mock bride, who, in turn, presented them to Mrs. Link. Miss McDill was assisted in serving refreshments by her mother.

DEATH LIST IN THEATRE DISASTER IS NOW AT 108

WASHINGTON, Jan. 30.—Exhausted from the thirty-six hours unremittng toil and heart-sick from the horrible tragedies uncovered in the wreckage of the Knickerbocker theatre collapse, begrimed soldiers and marines dropped their tools at 8 o'clock this morning and declared that all the bodies had been recovered from the pile of twisted iron and cement that once was the capital's finest movie palace. About 9:30 o'clock this morning a warning cry was sounded about the scene of the wreckage at Eighteenth street and Columbia road. The gaunt walls that reared fifty feet above the wrecked interior began to totter and it was feared they would crash. The west wall had a bulge in it several feet in dimension. Police and the remaining soldiers ordered all persons away from the building and the Red Cross aid station, set up in a confectionery store that stood in one corner of the building was ordered to evacuate. The death list as the sun came up over the desolate scene stood at 108, all

SECRET OF SUCCESS TOLD GRADUATES BY REV. FORD

Mid-Year Class at Glendale Union High School Present at Special Services

"The Secret of Success" was the subject of Rev. E. E. Ford's baccalaureate sermon last night at the Baptist church to the mid-year graduating class of Glendale Union High school.

"I want to welcome you to our evening service and thank you for the honor of speaking to you," remarked Rev. Ford. "I congratulate you on having successfully completed the course as prescribed by the Glendale Union High school. I also want to congratulate your teachers from the one who first taught you to read to the one who heard your last lesson.

"You are to go out into life to learn new lessons but, my young friends, you have already received the greater part of your education. To build a staunch ship is the work of a master; to load her the work of common laborers. The master builders in grammar, intermediate and high school have helped you build your life-boat. From now on you will put the cargo aboard.

Staunchness of Boat

"You will reach the goal of your ambition, the harbor of your desires, which is success, not so much because of the kind of cargo you carry as because of the staunchness of the boat and your ability to bring her safely through the hidden rocks and counter currents of your life's ocean.

"Success, the largest possible, is what we wish for each of you. But there are so many kinds of success! The completion of any task, good or bad, is called success. If our ambitions are low, we house our success with the bats and lizards or with high aims we may sweep boldly high, rightly claiming with the eagle the mountain top as our home.

"Success is spelled in terms of the reward. When the day's tasks are all done, when the treacherous seas are passed, and we weigh our anchor in the harbor of home and go up the gang-plank to the pay-master's office, what commodity will you be willing to be paid off in? Gold? But shrouds have no pockets. Houses and lands? Stocks and bonds? Of what use in the land to which you

C. OF C. MEMBERS URGED TO AID IN SEWER MEETING

Secretary James M. Rhoades Appeals for Big Attendance Next Wednesday Night

Every member of the Glendale Chamber of Commerce is advised by Secretary James M. Rhoades to get squarely behind the city council in its efforts to solve the sewage problem.

"There is a meeting scheduled for Wednesday night at the city hall. I would like to see those who are interested in the welfare of Glendale to be present and learn what the council is doing, to give them advice, and see that our greatest civic necessity is met.

"The council is composed of your elected representatives, high minded men who have oft-expressed a willingness to do your bidding. It is squarely up to the members of this Chamber of Commerce to show a spirit of co-operation."

See Need of System

The need for a general sewer system was brought forcibly to Mr. Rhoades' attention by the response to a call for Chamber of Commerce program suggestions. Practically every member who has replied includes the sewage disposal problem as one of the most pressing. Hundreds of other suggestions are being received and all are urged to send in their suggestions.

Thousands of slogans are now being considered by the advertising committee, its offer of $25 in cash having met ready response. According to L. H. Wilson, it will be some task to decide the winner. So many of the slogans are similar that many who will not win, can have the pleasure of seeing practically the same thought expressed on all Chamber literature.

identified. There are more than 150 in Washington hospitals, some of these so terribly mutilated that hospital authorities say they cannot survive. They predicted the death list will grow before nightfall from those who will die in hospitals. With its morgues and undertaking establishments filled with mutilated dead, its hospitals crowded with injured, mourning Washington today witnessed the inauguration of investigations aimed at not only placing responsibility for the terrible Knickerbocker theatre tragedy but also at "cleaning up" the District of Columbia government. Grim and angry senators, most of whom lost friends and acquaintances in the terrific toll of life taken by Saturday night's catastrophe, voiced a demand for a general "clean up" within a few minutes after congress convened today. At the same time a grand jury visited the scene of the disaster and other investigations were gotten under way by the coroner and the District of Columbia government. Declaring that reports had come to him that the building code of the District had been frequently violated during the war when many buildings were rushed to completion, Senator Capper announced that the investigation which he would propose would involve a sweeping inquiry into the construction of not only the Knickerbocker theatre but of all the large buildings put up since early in 1917.

SENATE MAY PASS DEBT REFUNDING BILL LATE TODAY

WASHINGTON, Jan. 30.—If enough senators are able to dig themselves out of their snow-bound residences, republican leaders hope to secure the passage by the senate today of the foreign debt refunding bill. By unanimous consent, each senator is to be restricted after 3 p. m. to twenty minutes' debate on the bill, and to ten minutes' debate on any proposed amendment. Despite the latitude for discussion allowed by this agreement, both sides share the expectation that the bill will be passed not later than tomorrow and agreed to in a conference of ranking members of the senate finance committee and house ways and means committee. Although conceding that the bill will soon become a law, democratic leaders are continuing their preparations to attack its constitutionality on the grounds that it fails to provide that whatever agreements are made by the commission created by it for the conversion or refunding of the foreign debt shall be submitted to the senate for its approval.

DEADLOCK OF CARDINALS SHOWS NO SIGN OF BREAKING

ROME, Jan. 30.—Week-end conferences of the Roman Catholic cardinals indicated today that the deadlock between the factons led by Cardinal Merry Del Val and Cardinal Gasparri could not be broken and that it may result in the election of some comparatively obscure cardinal to the papacy in the forthcoming conclave. Monsignor Benigni, chief lieutenant in Rome of the so-called anti-reconciliation faction, says that Cardinal Merry Del Val, this faction's choice for pope, is certain of twenty votes. On the other hand, Cardinal Gasparri, the papal secretary of state, who favors a policy of reconciliation between the vatican and the Italian government, claims twenty-nine votes. As fifty-six cardinals are expected to attend the conclave, this leaves seven that are uncertain. It requires a two-thirds majority to elect.

AMAZON ARMY OF KANSAS MAY AGAIN GO ON MARCH

PITTSBURG, Kansas, Jan. 30.—Reports that the "Amazon army" of the Kansas coal strikers will again take the war path kept police officers and state troopers on the alert today. It was said the women had planned a big mass meeting at Franklin tomorrow which will be led by "Mother" Jones. A march on the mines will follow the meeting, according to reports. Early today about 150 women of Franklin marched to the vicinity of the Jackson-Walker mine No. 17 They urged men on their way to work to return to their homes. There was no disorder and the women soon disbanded.

HENRY FORD WARNS CONGRESS ABOUT FUEL FOR AUTOS

DETROIT, Mich., Jan. 30.—Henry Ford today authorized the Detroit Times to transmit to members of congress his suggestion that they give their immediate attention to the vital question of the future supply of fuels for use in combustion engines, principally automobile motors. In an interview with Mr. Ford he said that at such a time as now, when farmers throughout the country have millions of bushels of corn on hand and with no prospect of a market for the produce, congress should turn its attention to the manufacture of commercial alcohol.

TRIAL OF ARBUCKLE WILL BE RESUMED TOMORROW

SAN FRANCISCO, Jan. 30.—While Gavin McNab, chief counsel for Roscoe ("Fatty") Arbuckle, put on his legal armor in Nevada today in behalf of another famous motion picture star—Mary Pickford—thus halting the Arbuckle trial, harassed bailiffs endeavored today to find means of diversion for twelve men and two women, the jury and alternates in the comedian's case, who have now been locked up three weeks. The trial will resume tomorrow.

WIDOW OF WEALTHY CAPITALIST IS BURNED TO DEATH

BLOOMINGTON, Ill., Jan. 30.—Mrs. Daniel Stewart, widow of a wealthy capitalist, was burned to death early today when flames destroyed her home at Anchor, near here. Two other women escaped in their night clothes.

ASKS MEXICAN INQUIRY

WASHINGTON, Jan. 30.—Hear- A resolution asking Congressional investigation into the activities of "American organizations and American individuals" in the affairs of the Republic of Mexico was introduced in the House by Representative Connolly, Democrat, Texas.

The resolution named the organizations to be investigated as the Association for the Protection of American Rights in Mexico, the Association of American Owners of Land in Mexico, their members, directors, agents, employes and other corporations or individuals in any way associated with activities affecting Mexico and its government.

JOHNSON SEES TROUBLE

WASHINGTON, D. C., Jan. 30.—The proposed $4,000,000,000 British debt bond issue as a means of helping to finance the soldiers' bonus was strongly opposed in the senate by Senator Johnson, republican, California, as "certainly to embroil the American people in European entanglements just as surely as any league of nations would do.

Senator Johnson declared that the chief reason France is now embroiled with Russia is "because there are in the pockets of the French people the Russian bonds which represent the indebtedness of the former Russian government to the French government."

COMMENT THAT'S ALL

"Pillars of Destruction"
More Unusual Weather
West Finding Prosperity
Keep Your Liberty Bonds

By Gil A. Cowan

TODAY the nation's capital bows its head in sorrow with 108 dead and scores more injured in the worst theatre disaster since films have become a general attraction.

Whole families were killed outright, some parties having members dead, others injured, and still others miraculously saved. All due to someone's carelessness in not having the snow cleaned off the roof!

Three years ago last Thanksgiving I entertained a little party of Californians at the Knickerbocker theatre—we had celebrated the signing of the armistice with a home-cooked dinner. Today I can see those massive pillars still standing in my memory. And to think that they smashed down through the floor, permitting the dome roof to settle over the audience like a death mask.

It must have been majestically terrible for the first people who arrived upon the scene. Columbia road, where the theatre is located, presents the most prominent section of the capital for the catastrophe. In almost every corner of the earth there will be interest in the casualty lists.

California is having some more "unusual weather." According to the moon it will be wet until February 4, but the same almanac says you can live forever by taking a spoonful of ———— every day.

Keeping warm and dry are the principal occupations of the populace with the exception of those fighting the floods or playing poker. Just try to get your own hired help to settle down and do anything! Only some one who writes a column daily has to keep at the typewriter.

Anybody who has an explanation for this freak weather—and it sounds reasonable in writing—would confer a favor by sending it to The Glendale Evening News "muy pronto." A recipe for calking leaking "gunboats" (army issue shoes), also will be appreciated.

"The end of 1921 witnessed a very measurable progress toward the return of prosperity."

That one sentence summarizes the December report of John Perrin, chairman of the board and federal reserve agent of the federal reserve bank of San Francisco, according to dispatches today received by The Glendale Evening News from the International News Service.

"Substantial and permanent recovery from the severe readjustment of the past year must await the results of the crops of 1922," says Mr. Perrin, "but there is already apparent, pronounced improvement in the credit situation when compared with the beginning of 1921.

"Building activity throughout the district continues at record figures, December returns being second only to those of last October. The year 1921 shows an increase of 31.5 per cent in number and 17.9 per cent in value of permits compared with the year 1920. In view of the considerable reduction in cost of building during the year, the physical volume of construction for 1921 was even larger in comparison with 1920 than the foregoing figures of value would indicate."

Many prudent workers have held on pretty well to their Liberty Bonds. Richard Spillane, the financial writer, gives some figures that are peculiarly significant. The Philadelphia Saving Fund society, which Mr. Spillane describes as one of the oldest and biggest institutions of its kind in the world, comes nearer to representing the great body of working people than perhaps any other bank in America. For that reason these facts are significant:

The highest total of Liberty Bonds held by the bank for its depositors was $10,558,000. The holdings on December 1, 1921, were $10,074,000.

On January 1, 1921, the society had 294,526 depositors. On December 1, 1921, it had 283,694.

About 46,000 persons own the $10,074,000 of the Liberty Bonds held by the bank to the credit of its depositors.

What is true of Philadelphia is, or should be, true of all America.

What has been said many times before may be repeated now.

Hold to your Liberty Bonds.

CONFERS WITH PRESIDENT

WASHINGTON, D. C., Jan. 30.—Secretary of State Hughes, accompanied by the Chinese minister, Dr. Alfred Sze, called at the White House and had an hour's conference with President Harding.

While the subject matter of the conference was not disclosed, it is believed that the visit of Dr. Sze with Secretary Hughes was associated with the administration's known desire to bring the Shantung negotiations between Japan and China to a speedy close. Pressure has been exerted on both the Chinese and Japanese delegates by the British and Americans this week to settle the Shantung controversy, as the whole armament conference is now more or less waiting on Shantung.

TO CLEAR PATH TO BOAT

SAULT SAINT MARIE, Mich., Jan. 30.—Preparations were being made today by port officials to have a path swept to the ice-bound passenger boat, Chief Wawatum, which has been frozen in the ice three miles out from Mackinac City since last Thursday night, in an attempt to land its 130 passengers and crew. No attempt has been made to rescue the passengers before because of a blizzard that has raged for the past six days. The boat was reported as being well stocked with food and fuel and no fear is felt for the safety of the passengers or the crew.

HAND - PICKED IS CHARGE

WASHINGTON, D. C., Jan. 30.—Underground dissension in the National Agricultural Conference and insurgency among delegates because of charges that the gathering is made up of "hand-picked" delegates who will favor "cut and dried" administration policies, threatened fireworks before the conference ends.

Criticism of the conference was voiced openly. The so-called "progressive group" organized a farm paper bloc and charged that the conference was called primarily to administer a rebuke to the Congressional agricultural bloc.

HUGE SUMS ARE SOUGHT

WASHINGTON, D. C., Jan. 30.—The government is prepared to institute suits in the district courts in Ohio for recovery of large sums of money representing alleged overpayments on "cost-plus" contracts for aircraft production during the war, Attorney General Daugherty announced today.

Daugherty stated that government accountants had reported to him that overpaymens had been made of $2,554,383 to the Dayton Wright company and $4,706,055 to the Wright-Martin company, both of Dayton.

FAITHFUL WORKERS GREATEST NEED, PASTOR HOLDS

Do What You Can Faithfully Says Rev. C. A. Cole, in Sermon Sunday Morning

"The great joy of heaven will be to know that what little we did for God here has brought rich returns," remarked Rev. C. A. Cole yesterday morning at the Christian church.

"What is your talent? Are you using that talent for the Master? If so, be sure it will increase in value, bring blessing to others and joy to yourself. But, if hidden away in selfish possessions, in things of the earth, and in temporal pleasures your talent will be taken away from you. Each talent is a great responsibility which may not be shirked with impunity.

"I heard of a family consisting of father and mother and two sons, all members of a church in which there were hundreds of families and 1600 Sunday school scholars. And yet among all these this small family was prominent for its good works.

How They Did It

"One day their appreciative pastor asked them how it occurred to them to do so many things for the church. One of them replied, 'Every morning at breakfast I ask the question, 'What can we do for the church today?' and it rarely happens that any of us have to answer 'nothing,' but more is suggested than we can do.'

"If we do what we can faithfully, we'll get our reward. God honors the effort. 'Well tried' is as good as 'well done.' If I cannot be something great, I can be something small. But, whether great or small, I will determine to be something.

"Young man, you may have the good looks of Absalom, the skill of a master, the accomplishments of an artist but, if you cannot be depended upon, you are done for.

Want Faithful Workers

"We can buy skill, knowledge and smartness on every corner, but the quest of Sunday school superintendents and church officers and business firms is for faithful workers.

"God gives us all time to make men and women of ourselves, but many, instead of spending the time to carve out good and useful lives are fooling away the time. If your credit is good, the bill won't be in for a long time but it's sure to come. The longer the delay the bigger the reckoning."

SAYS CHURCH ISN'T ALWAYS FAITHFUL TO ITS TRUST

Sometimes Wrong In Shutting Its Gates to Penitents, Says Rev. Edmonds

Rain did not hinder a fair attendance yesterday morning at the Presbyterian church. Rev. W. E. Edmonds spoke from the text: "Open to me the gates of righteousness."

"When people go forth with such a psalm, victory is assured," declared Rev. Edmonds. "But when we think of 'righteousness' our hearts begin to fail a bit. It is so high an adventure as to be often discouraging. Always sin has looked easy and righteousness terribly difficult.

"Every believer is a gate-keeper and carries a responsibility therein beyond any other in the world. Don't think you came in to a little easy task.

"The first gate-keeper stands for righteousness. This is the word for every kind of practical living. Right is right; it has no two sides.

Sometimes Gates Barred

"The church oftentimes has not been faithful to its trust and has been wrong in shutting the gates to many who would come in. And on the other side has been that wrong spirit that said there was no need of coming inside the gate, nothing worth coming for. The Roman church stood at that gate through the early centuries barring entrance to many a penitent who would not conform with its ritual. Luther was such an one. And later the Protestant church has sometimes been a surly gate-keeper. Christ Himself is the way; Himself the gate of righteousness; the church officers are nothing but His servants.

"The church has a call to meet every need. If all these needs do not appeal to you, you are all wrong. There is no room for any man to sit in judgment upon those who are in need. Oh the cry from the countless oppressed millions of heathen lands to open to them the gates of social and physical righteousness! The problem nearer home of hard times and unemployment! There is the sin of waste and extravagance on the part of professing Christians, consciously or unconsciously. It would seem that they must answer at the Judgment for failure to open the gates to the innocent sufferers of the world.

Cannot Shift Forever

"Where is the responsibility? We can't be forever shifting it. So much of our social service ends with the material part. But it must not stop there. All of us are gate-keepers standing at the gates of right and by our words and deeds making it easy or hard for others to enter. Bad temper, bitter speech, suspicion and fault-finding block the way. The man who professes Christ must be different from the world.

"After all, Jesus Christ is the real gate-keeper. The blood of His cross is upon the gate-posts. Trust Him and go in at those open gates."

The Electrical Contractor and How to Find Him

THERE is only one kind of electrical contractor whom you can afford to employ. That is the qualified, responsible technician who employs only good workmanship, uses only standard materials and who charges a fair price.

The "check" seal on electrical merchandise is a helpful guide in choosing a contractor. The Pacific States Electric Company, in an effort to safeguard both the consumer and the responsible technicians and dealers in the electrical industry, has established this means of identifying standard electrical materials and appliances and competent electrical contracting service.

The "check" mark appears on a complete line of electrical merchandise, selected from the markets of the world, inspected and certified as standard and distributed by contractors and dealers who are qualified as to responsibility and technical competence.

You will enjoy our new booklet "The Electrical 'How' for Households" which lists some of these standard materials and appliances and describes their use in the progress of a typical day in an electrified home. It may be obtained free from any contractor or dealer displaying our seal.

SAN FRANCISCO, Jan. 30.—Representing the local chapter of the Disabled American Veterans of the World War, William J. O'Connor, local attorney and member of the disabled veterans' state committee, left here for Washington where he is to participate in the conference between the officials of the disabled veterans' national organization and the veterans' bureau of the United States government.

O'Connor took with him the unanimous support of the California disabled ex-service men on measures to be discussed for the betterment of conditions now prevailing in institutions where disabled ex-service men are patients, as well as new projects to be presented for veteran relief.

Lacking in appreciation the world seldom is. It is only inexcusably tardy in some instances.

MANY BRAVE STORM TO HEAR FORMER RECTOR SPEAK

Rev. Andrew J. Graham Tells Christian Scientists of 'Reparable Past'

Hundreds braved the elements yesterday afternoon to attend a lecture on Christian Science here at First Church of Christ, Scientist, California and Maryland Aves., by Rev. Andrew J. Graham, C. S. B., who spoke on "Christian Science and the Reparable Past." The Rev. Mr. Graham formerly preached from the Episcopal pulpit. In his discourse, he said, in part:

It is fundamental to the truth of Christian Science that God knows neither time nor the so-called history of time. He inhabits eternity. His name is I Am. This name denotes continued existence, without beginning of years or end of days. Humanly speaking, with Him there is only the present. He knows nothing of a past or of a future. He knows all there really is to be known. He always has known it and He always will know it. Eternity is the never-ending now.

Only mortal man speaks of time, and he divides it into past, present and future. Through experience, mortal man has learned that nearly all his troubles, of every nature, are brought upon him by the fear of either the past or of the future. One's duty is to live in the present, to

"Act, act in the living Present;
Heart within and God o'erhead."

But, when he considers the matter carefully, he realizes that most of the time, he is living, that is, is thinking, in either the past or the future. There is the belief that the past is irreparable; that it has power to reach forward and blight the present; and that the future, like the sword of Damocles, is always threatening disaster. Troubles and discords are chiefly in retrospect or prospect; they are in the field of memory or they are in the field of anticipation.

In this lecture it is of the past we are speaking. We are striving to elucidate how it is that Christian Science, by inducing right thinking, and through its compassionate, healing ministry, releases the human mind from fear of the past and in this way opens the door to health, happiness and peace. You doubtless see, then, how germane is the phrase: Christian Science and the Reparable Past.

The Need

The world needs this gospel, for mortals seem to have inherited an oppressive mental burden from some of the thought of philosophy, poetry, theology and materia medica.

"He is bearing it very philosophically," is a common expression. In other words, there are some things which cannot be cured and therefore they must be endured. This is fatalism. It is the teaching of a plaintive philosophy which has not a trace of hope or moral courage.

A general catena of the world's standard poets would reveal the fact that much literary effort has been expended in emphasizing fatalistic teaching, and most of the poets now and then express adherence to the creed of an irreparable past.

Theology and materia medica have added, and they are still adding to the mental burden of mankind, by teaching that much of the past is irreparable; that an accumulation of mistakes, failures, sicknesses and sins, will imprison one without a chance of reprieve in this life. Mankind needs the glad tidings of Christian Science. These tidings proclaim release to the captives. They proclaim a present God—good—a present salvation from failures, sicknesses and sins, if men are willing to abide by its law and practice the precepts which that law presents.

Mary Baker Eddy, on page 39 of Science and Health, writes:

"Now," cried the apostle, "is the accepted time; behold, Now is the day of salvation,"—meaning, not that now men must prepare for a future-world salvation, or safety, but that now is the time in which to experience that salvation in spirit and in life."

Winona Campfire Girls Hike in Verdugo Hills

A party composed of members of Winona Campfire girls, accompanied by one of their leaders, Mrs. St. Clair Whytock, left at 9:30 o'clock Saturday morning for a day's hike in the Verdugo Hills. In Sycamore Grove they enjoyed a bountiful lunch. After a short period of resting, they continued their climbing until they reached Dead Horse Canyon, where they amused themselves by carving their names on the bones that abound in the vicinity. They reached home at 3:30 o'clock in the afternoon.

Members were Louise Hoyt, Janet West, Virginia Clarke, Margaret Farner, Virginia Glass, Jeannette Zeitner, Lois Wardell, Juanita Doll. The Winona Camp has a full membership of twenty-two, and was organized under the direction of Mrs. Robert Carpenter of 446 West Elk street.

HELD GUILTY BY JURY

SPRINGFIELD, Ill., Jan. 30.—Thomas Hayes of St. Louis, was found guilty of one count in the indictments returned against him in the $46,000 mail robbery at Wood River, Ill., several weeks ago. The jury had deliberated for several days. Attorneys moved for a new trial.

Cannot Be New Life and Still Hold Old, So Declares the Rev. C. M. Calderwood

"We can't have a new life and at the same time continue all the old life," remarked Rev. C. M. Calderwood yesterday morning at the Congregational church.

"We can't have a new world order of civilization and at the same time continue all the old conditions. The tragedy of Europe today is the tragedy of the refusal of the new birth. The new birth, the new life has been refused. It will now come through a catastrophe.

"Men and women must learn that new life comes only through the transformation and infusion of life. This old doctrine of the new birth is the doctrine of the new and better life. Men and women, the church and the nations must learn it, if the golden age of God's kingdom is ever to pass from a dream to a reality. The ideal must come into life before there can ever be a worth while reality.

Sources of Power

"It should be easier for us to understand this for we are learning that the sources of power are outside of ourselves. Man in himself is weak but with the triphammer he can strike a blow of many thousand pounds. Man's legs can carry him four or five miles an hour but his eight cylinder car will take him sixty miles an hour. Man has in his own strength power to turn a coffee mill but he dams the Mississippi at Keokuk and develops 300,000 horsepower.

"God lends power to men for the upbuilding of his body and God waits to lend His spiritual and moral omnipotence for the newer life of the race and the nation. Poets, artists, orators, and musicians want more life poured into them. Men everywhere are learning that to do an immortal work an immortal life must be poured into them.

From New Intelligence

"Growth is not enough. Slavery would not have grown into anything beautiful. Anarchy does not grow into order. Selfishness does not of itself grow into unselfishness. The cactus does not of itself grow into Burbank's spineless variety.

"Growth alone may turn a small evil into a great one. The new life comes from a new intelligence, from a new culture, from a new hope, from a new ideal.

"We should not be tied to the past for there is need of new life. After the infusion of physical and mental life, there is need of an infusion of spiritual life.

"Great national movements have come as a result of national rebirths."

Miss Melva Latham to Talk at Cerritos

The members of the Cerritos avenue Parent-Teacher Association, of which Mrs. E. L. Adams is president, have been fortunate in securing for their speaker at the regular meeting of that organization, which will be held Thursday afternoon, February 2, at the school, Miss Melva Latham, assistant professor of history at the University of California, southern branch. Miss Latham is a descendant of Priscilla and John Alden and is a splendid type of sturdy New England womanhood. It was her good fortune to attend the celebration of the 300th anniversary of the landing of the Pilgrims at Plymouth, Mass., which was held last summer.

The numbers for the afternoon, which will be in the form of a patriotic program will include the following: Songs and recitations by the first grade; "America the Beautiful" by the fifth grade; "The Landing of the Pilgrims," sung by Harry Girard; address on "The Pilgrim Spirit," by Miss Melva Latham; talk on the 25th birthday anniversary of the National Parent-Teacher association, by Richardson D. White, superintendent of schools.

Frederica Browne Is Hostess, School Friends

One of the pleasantest of the many social affairs enjoyed by the younger set during the past week took place Saturday night when Frederica Browne entertained a group of high school friends at the home of her parents, Mr. and Mrs. F. L. Browne, of 1111 Melrose avenue, Casa Verdugo.

Dallas Kalbaugh captured the prize for writing a telegram, a game in which they were limited in time, and given a certain number of letters, Earl Hendershot and Alice Hill were awarded honors as partners, in a guessing game, while Leah Allender, distinguished herself as a sculptress in a game where they modeled animals from chewing gum. Refreshments of popcorn balls, candy, ice cream and cake were served.

Those present were Alice Hill, Alice Carpenter, Lucile Beach, Beryl Goodale, Alexandria Bagley, Marjorie Hart, Vivian Ney, Charlotte Blakney; Leah Allender of Pasadena; Alex. McDougall, Dallas Kalbaugh, Arthur Barton, Clifford Walcott, Robert Hatch, Carleton Walker, Earl Hendershot, Donald McMillan, Miss Gladys Sharpe, Mrs. Jennie Morris, Frederica and Mrs. Browne.

CHILD DIES IN FLAMES

BEAUMONT, Tex., Jan. 30.—Jack Deaton, 4-year-old son of Mr. and Mrs. William Deaton, was burned to death in a fire which destroyed the Deaton home. Other members of the family escaped in their night clothes. Odetta, a sister of Jack, was seriously burned.

SECRET OF SUCCESS TOLD GRADUATES BY REV. FORD

go? The plaudits of men? Someway they sound empty and shallow.

Be Victor of Course

"What will delight your heart? To hear the master of Heaven and earth say: 'Well done, good and faithful servant!' It is not the amount of value of the cargo you deliver on the dock but the fidelity with which you brought to port that which had been committed to your keeping.

"If your goal is the mudflats at the mouth of the stream, all you will have to do is to sit idly back and drift. If you would reach the pure springs of the river's source, grab the oars and pull. Be not a victim of the current but a victor of the course.

"Think less of your pay-check and more of the task and you will have more of a check to think about.

What Is Success

"I know I have led your thoughts along the opposite trail from the one being followed by the crowd today. Success! Why, success is striking an oil gusher making it possible for the owner to stop work and sit down in the lap of luxury and ease the rest of his mortal life. Is not that the world's definition of success?

"It makes a deal of difference where you get your yard stick. Man says that the man is greatest who has the most men to serve him; God says the man is greatest who serves the most men.

"Young people, you are desiring success; you face the future with high hopes. Tomorrow is a wonder day, wonderful in possibility. Down the trail of tomorrow you may meet the monster failure or the greatest success. You may decide which. Do you seek a living or a life? If a living only, your life will be a failure. If a life, cleansed and made beautiful by the Son of God, you will have learned the secret of success."

Deaths and Funerals

MRS. ANNA HARTLEY

Funeral services for Mrs. Anna Hartley of 412 North Kenwood street were held at 3 o'clock Saturday, January 28, 1922, in the chapel of the Jewel City Undertaking company.

Death occurred suddenly at her residence at 8 o'clock Sunday evening, January 22.

Mrs. Hartley had been a resident of Glendale for about three years and a faithful member of the Seventh-day Adventist church for over 20 years. She was born May 22, 1846, a daughter of Mr. and Mrs. David Downs. She was married to Matthias Hartley in 1863.

To this union were born ten children, seven of whom are living: Linzy Hartley of San Diego; Mrs. Theodore Wolfe, San Francisco; David Hartley, Chrisman, Ill.; Marshall Hartley, Decatur, Ill.; Bert Hartley, Chicago; Evander Hartley, Newman, Ill.; Mrs. Frances Heald, Battle Creek, Mich.

Two sons, Wilbur Hartley and Fred Seybold of a deceased daughter also mourn her loss. A sister resides in Madison, Wis.

WILLIAM D. CLARK

Funeral services for William D. Clark of 430 West Milford street will be held at 2 o'clock tomorrow afternoon, Tuesday, January 31, 1922, in the Little Church of the Flowers, according to an announcement this morning from Pulliam & Kiefer.

Mr. Clark passed on shortly after midnight Saturday at his home following an illness of a number of weeks.

Born in Providence, Rhode Island, Mr. Clark was 51 years of age. He came to California fifteen years ago and, as a traveling salesman, had made Glendale his headquarters for the past year and a half.

Mrs. Lillian K. Clark survives her husband and five children: Oliver D. Clark, John B. Clark, William B. Clark, Fannie L. Clark and Robert M. Clark, all living in Glendale.

Mr. Clark was a member of the local Christian Science church.

CREDIT MEN IN SESSION

Three dozen merchants, members of the Glendale Credit association, dined this noon in the Chamber of Commerce banquet hall and discussed business problems.

SULPHUR IS BEST TO CLEAR UP UGLY, BROKEN OUT SKIN

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Mentho-Sulphur may be obtained at any drug store. It is used like cold cream.—Advertisement.

Pacific Electric Commutation Fares

In accordance with supplemental order of the Railroad Commission, after rehearing in connection with fare readjustment of Pacific Electric Railway, three forms of commutation tickets will be placed on sale, effective February 1, 1922, instead of one, as at present:

(1) Continue the present individual calendar month daily ticket, at the present rates, which are:

1 to 10 miles	1.2c per mile
11 to 15 miles	1.08c per mile
16 to 20 miles	.96c per mile
Over 20 miles	.90c per mile

(2) An individual calendar month ticket, good for use on each week day (excluding Sundays) for one round trip, at 10 per cent less than the charge for the ticket good for each calendar month day.

(3) A 60-ride, 40-day ticket, which can be purchased at any time, and used for as many trips, any day, as the passenger may desire. This ticket is based on the following rates per mile:

1 to 10 miles	1.38c per mile
11 to 15 miles	1.242c per mile
16 to 20 miles	1.104c per mile
Over 20 miles	1.035c per mile

(This basis is 15 per cent higher than the calendar month ticket covered by Item 1 above.)

Our patrons are requested to apply to local ticket agents, before purchasing tickets, to find the advantages of the different forms of tickets, and ascertain which one will best serve their needs. If anyone has already purchased a February ticket, and prefers one of the new forms that have now been authorized, full purchase price will be refunded on surrender of ticket, if no coupons have been used, so that one of the new forms may be obtained.

These changes entail a great deal of work in the way of computing the fares between particular stations, printing of tickets and tariffs, and issuing instructions to agents and conductors, and there will no doubt be some confusion during the first part of February, but this will all be corrected by the middle of the month. In any event, there will be no serious inconvenience to our patrons, and we request them to bear with us until the agents and other employees have an opportunity to familiarize themselves with the different classes of tickets.

D. W. Pontius
Vice-President and General Manager.

KILLED IN PISTOL DUEL

INDEPENDENCE, Mo., Jan. 30.—George Barton, a policeman, was shot through the abdomen and Zedrick Byrd, 63, negro, was shot through the heart, dying instantly, in a revolver battle early today.

The negro, evidently crazed by drink, attacked the policeman, wounding him seriously. Barton returned the fire but his shots went wild. Police Chief M. A. Harris, attracted by the shooting, fired the shot which killed the negro.

Searchlight Put on Monarchist Moves in Central Europe

By S. D. WEYER
Written for International News Service

BERLIN, Jan. 30.—In the mystery surrounding the monarchist moves in Central Europe, including the alleged ambitions of former Empress Zita, who is now in Switzerland, a powerful searchlight has been thrown by the revelations of the Muenchener Neuve Nachrichten, said a dispatch from Munich. The high lights of the sensational story follow:

"A representative of former Crown Prince Rupprecht of Bavarja and Archduke Albrecht of Hapsburg motored to Rome and agreed upon these cardinal points:

"1—The Hapsburgs to surrender the Austrian Alps and the Vorartberg and the rights of the Hapsburg dynasty therein to the House of Wittelsbach, the former ruling dynasty of Bavaria.

"2—Vienna and the immediate surrounding country to be created into a neutral free state.

"3—The House of Wittelsbach, supported by 250,000 members of the so-called free corps and the 'Orgesch' to re-establish the Hapsburgs on the Hungarian throne.

"The Orgesch was formed in Germany about two years ago. At the time the allies alleged it was a national organization for future military purposes. The founders denied this, claiming that its object was merely to give all parts of the country an opportunity to co-operate for the economic reconstruction of the nation.

"The ambitious plan for 'monarchial restoration' was to have been carried out upon the occasion of the recent funeral of former King Ludwig. Leaders of the Bavarian reichswehr were said to have promised their support. At the last minute, however, forces supporting the Republican government at Munich learned of the intrigue and warning was given against any attempt to proclaim Rupprecht 'king of Bavaria by force of arms'."

According to the Munich newspaper, the papal nuncio at Munich was involved in the negotiations.

TOTAL RAINFALL OF SEASON NOW AT 18.37 INCHES

Many Motorists Hurry to Hills for Snow Battles; North Gets White Blanket

(Continued from Page 1.)

drench Los Angeles and nearby towns today following the severe storm of yesterday.

The storm was responsible for the death of L. J. Jackson, harbor pilot at San Pedro, and for the possible fatal injury of Mrs. Belle Rossen. Basements in a number of sections of the city were flooded by water.

The snowfall in the mountains was heavy and several cars of the Pacific Electric railway were snowbound on the Mount Lowe grade. Seventy-one passengers had to tramp through the snow for some distance to other cars. Mount Wilson also reported a heavy snowfall, extending well down into the foothills.

Pilot Jackson was drowned when the municipal boat overturned. Mrs. Rossen, blinded by the rain, was struck by a street car.

Almost an inch of rain fell in Los Angeles and vicinity up to 7 a. m. today, bringing the season's total up to 12.89, against 6.18 at this time last year.

Storm at San Diego

SAN DIEGO, Cal., Jan. 30.—With storm warnings hoisted at harbor headquarters naval vessels remained in port here today as high winds whipped in from the sea. Streets of the city were transformed into gurgling rivulets as unprecedented torrents continued. The heaviest precipitation in six years already has been recorded.

Highway and railroad bridges, under repair from heavy damage of a similar storm early this month, were being weighted as a precaution against their being swept away. Stage service to Los Angeles and other points continued, though materially hampered by the deluge. Train service on the San Diego & Arizona railroad to Tia Juana and interior points probably will be abandoned tomorrow in the event the rain continues much longer.

At Cuyamaca, Laguna Junction and other points back from the coast snow was melting today under heavy torrents of water that will increase the seasonal rainfall of this section by more than fifty per cent.

Snow About San Francisco

SAN FRANCISCO, Jan. 30.—Although completely melted in the lowlands, the foothills and hills of the bay regions today still bore a mantle of white as evidence of the heaviest snowfall in many years. California kiddies by the thousands saw their first snow Sunday.

The fall was heavy in the mountains, of considerable depth in the foothills and quite apparent at times in the lowlands. In the bay regions the fall was sufficient in Berkeley and Piedmont for snowballing. In San Francisco it melted as fast as it fell, although Twin Peaks, two high hills overlooking the city, were covered with five inches of snow.

Fifty members of the Alpine club were snowbound by the blizzard on top of Mount Tamalpias and were forced to tramp through three feet of snow which had drifted at some points waist deep in order to reach a point where the trains were running.

The snowfall was the heaviest in San Francisco since 1887. Snow has fallen but seventeen times in the forty-six years the United States weather bureau has been established there.

PROGRAM OF PARTY LEADERS CAUSES SOME DISPUTE

Every Effort Will Be Made to Carry Out Plans Submitted by Republican Chiefs

By U. S. Press Association.

WASHINGTON, D. C., Jan. 30.—Senate republican leaders have been planning on a legislative program for the present session, and have under consideration a new proposal for combining the soldier bonus and allied debt refunding bills toward such payments for former service men by sale of bonds received from the allies. This program has already aroused opposition in the senate.

The major item of the republican legislative program, said to represent a consensus of leaders' opinion as a result of recent conferences with President Harding and between themselves were: The allied debt refunding bill, the bonus measure, the tariff revision bill, the treaties growing out of the armament limitation legislation. This program it is said, has received virtually the approval of the republican leadership.

With the enactment of this program and other minor legislation, the leaders say they believe the present session would be adjourned by midsummer, if plans to keep a quorum of republican senators present at daily senate sessions and to press all legislation more vigorously, are carried out.

Treasury Finds $10,000,000

A few days ago the question of available United States Treasury funds for a pressing and wholly authorized purpose was under consideration, and the statement was made that the funds were lacking. The statement was challenged and a certain bank deposit was pointed out in support of the challenger. Investigation followed, and it was learned that one bank in New York had a $10,000,000 deposit of United States funds, on which no report had been made, no interest reported or paid, though the deposit was made in 1919. The incident has set many people wondering how many deposits are standing to the government's credit without record, and concerning which the new administration has no means of knowing.

Importation of Luxuries

Even the importers of luxuries are reducing materially the sums of money which they are sending out of the country for the classes of articles which may be properly included under that term "luxuries." Taking fifty principal imported articles or groups of articles usually included under that general title, it appears that their value in 1921 totals only $330,000,000 as against $525,000,000 in 1920, an apparent reduction of about 37 per cent in the amount of money sent out of the country for luxuries in 1921 when compared with 1920.

This fall off in importation of luxuries, says the Trade Record of The National City Bank of New York, is due in part to smaller quantities of the articles brought in and in some cases to lower prices, though in this class of merchandise the reduction in price comes more slowly than in many other classes of articles imported, especially manufacturing materials and foodstuffs, which show a much larger fall in prices than do the finished articles and especially those classed as luxuries. In automobiles imported, for example, the number brought into the country in the 11 months ending with November, 1921, is only 498 against 853 in the same months of the preceding year.

Advocates Public Control

In appearing before the House Committee on Agriculture, which began hearings on the Snoll bill providing for joint Federal and state action to check forest devastation and insure permanent timber supplies, Colonel W. S. Greeley, Chief of the Forest Service, United States Department of Agriculture said that "federal legislation is needed because the United States is now consuming wood four times as fast as it is being grown.

Enormous areas of the virgin forests have been converted into lands largely or wholly unproductive," he added; "Two-thirds of the lumber users in the United States now pay more per thousand feet in lumber freight alone than they paid for the delivered commodity 30 years ago. The country faces definitely a growing scarcity and increasing cost of everything made from wood. The problem is nation-wide and must be dealt with in a nation-wide way."

Cannot Blame Woman, Says Convicted Forger

When Henry P. Wilsie, forger, was sentenced to San Quentin Saturday morning in Superior Judge Sidney N. Reeve's court, the latter said: "No man can blame a woman for his own misconduct."

It was on such a plea that Wilsie asked clemency. He was caught at the instigation of the Bentley-Schoeneman Lumber company of this city whom he mulcted of more than $100. All told, he passed 21 worthless checks after having family trouble. He had served time in the county jail for failing to provide for his three minor children.

JERSEY CITY, N. J., Jan. 30.—Three bandits held up the messenger of the National Bank of North Hudson, seriously wounding a detective, and escaped with $20,000. The holdup occurred at West Hoboken, near here. The money was being taken to the West Hoboken postoffice for safe keeping over Sunday.

ROMANCE IN EVERY LIFE, POINTS OUT DR. C. M. CRIST

Big Possibilities of All Human Existence Should Arouse Interest, States Pastor

"On Old Testament character in an up-to-date setting" was the topic of Dr. C. M. Crist yesterday morning at the First Methodist church.

"Elijah was an outstanding character of Old Testament history," declared Rev. Crist. "In the Epistle of James we read of him 'Elijah was a man subject to like possessions as we are.' No higher tribute could have been paid to him. 'He was a man.'

"It has been well nigh a universal rule that when God had a mission to be carried, a work to be performed, he has chosen a man for the task.

"And Elijah was selected for one of these tasks. He was not a perfect man. The divine record shows that he had his discouragements and perplexities common to man. His experience under the juniper tree was one of these occasions. Because of the intervening years and the miracles performed we somehow get the idea that he was superhuman.

Should Arouse Interest

"His was an interesting life but, after all, is there not more or less of interest and romance in every life? The opportunities and possibilities of all human existence should arouse and hold our deepest interest and kindle within us an ambition to be true to our surroundings.

"Let's covet the zeal, loyalty and fidelity of our forefathers. And like them may we meet God face to face, realizing that we, too, like Elijah, are walking to eternity. Every step brings us nearer and nearer. Maybe nearer than we think. May we aim to fit into God's plan and work to the end!"

Dismiss High School As Result of Storm

Wet feet caused the dismissal of students about 9:30 this morning at Glendale Union high school.

Of course, Principal George U. Moyse did not explain the matter just that way. He said that driving rain at the time the pupils came to school caused many of them to get soaked and that the drying facilities were inadequate to cope with the situation although the heating plant was working normally. He mentioned the unusual chill in the air this morning and remarked that the problem of health was more importan than lessons.

The necessity of students going to and from the bungalows in the rain is a handicap under the present school arrangement according to Mr. Moyes.

Pupils were instructed to go home as quickly as possible and change to dry clothing. School will be called at the usual time tomorrow morning.

LONESOME MAN AND UNUSUAL CAT ON STRANGE SEARCH

Artist at Carving Seeks Seeds in San Fernando Valley to Continue His Work

W. T. S. McCleary, who is known the world over as "Lonely Max" and "Lil' Ed," a zebra cat, the only one of its kind in America, were visitors in Glendale Saturday.

Mr. McCleary is a most exceptional artist and has a very wonderful collection of carvings made by him with a penknife on apricot, peach, cherry and numerous other kinds of seeds. The carvings are of all sorts of animals, birds and bugs. His visit in Glendale was while he was en route to some of the canneries in the San Fernando valley, where he expects to collect seeds to further his artistic work.

Mr. McCleary is also writing a book on his travels, which cover over 200,000 miles, and of his collection. At the present time he has a collection of carvings on exhibition at Exposition Park, Los Angeles, the value of which has been estimated at $75,000 by museums in the east.

In his collection "Lonely Max" claims to have the smallest peach seed in the world, the weight of which is one-sixtieth part of a grain. From the carved seeds he has fashioned cuff-buttons, stick pins, coat buttons, rings and other useful articles.

Has Nothing To Sell

When questioned as to the sale of these articles he replied that he had nothing to sell. However, when he completes his travel book he intends to sell it and turn the proceeds over to the poor, he says.

The zebra cat, which is Lonely Max's constant companion, is white with stripes of brown, and is carried in a specially designed satchel. Mr. McCleary is making his headquarters in Los Angeles at the present time.

EDUCATIONAL TRIP TO PACKING PLANT TAKEN BY BOYS

Group of Sixty-three Youths From Grammar School Y Visits Wilson Factory

The grammar school groups of the Glendale Y. M. C. A. spent Saturday morning at the Wilson Packing Plant in Los Angeles on one of their educational trips, leaving the office of the Glendale Y. M. C. A. at 8:30 o'clock.

The party of sixty-three boys was accompanied by G. F. Gosser, H. T. Hattieson, W. G. Boyd, Carl Seitter and Rex C. Kelley, the local Y. M. C. A. secretary.

Upon arrival at the packing plant the members of the party were conducted to where the "killing" was taking place, but were a little too late to see the slaughtering of the pork and beef. Sheep were being killed. From there they were taken to the many departments of the plant and each step was explained.

Let Nothing Escape

The boys saw how every particle of the animals was being used, from the hair in the making of plaster, to the neat's foot oil for softening leather and making it waterproof.

The department where the weiners were being stuffed and cooked had especial attraction for the boys, and it was here that they accepted their first samules of the production of the plant.

These educational trips have a great value to the boys as they give them a real practical visual method of learning, their leaders say.

Hi-Y Boys in Charge of Church Services

A very interesting program was conducted by a group of Hi-Y boys last night at the First Methodist church and included the following numbers:

Introductory remarks and prayer, H. L. Butterfield; scripture reading, Dick Fisher; address, Maynard Toll, on "What the Hi-Y Stands For: the Highest Attainment of the Physical, Intellectual and Spiritual"; address by Dale Woods on "A Worth While Christianity." He stated that its representatives stand in the first ranks of civilization, and also told of its worth in this life and value in the next; address by George Jordan, "The Relation of The Church to the Community." He called attention to and cited examples of a constantly closer and more helpful relationship, and urged upon the young Christians to be more earnest and sincere.

The speakers were presented by Don Cameron, who presided at the meeting, after which the boys were thanked by Dr. C. M. Crist on behalf of the congregation.

BURBANK TREASURY IS ENRICHED BY $250 DONATION

City Gives Away Bit of Land It Cannot Sell and Gets Real Cash in Return

The city of Burbank has had a windfall. Evidence of it cropped out when a motion prevailed to the effect that the city accept a donation of $250. Said amount was graciously accepted.

It appears that at the foot of Angeleno avenue there is a plot of ground that is of no value for street purposes, as the street cannot be extended. The city could not sell the property, so it vacated this small plot, and the Union Supply company in recognition of the advantage it was to the company sent the city a gift of $250.

Tom Mix Is Shown In Romantic Story on Glendale's Screen

Tom Mix, the famous Fox star, is seen again today and tomorrow at the Glendale Theatre in "The Rough Diamond," a picture that is an extraordinary departure from the type that he has made famous. It is a thrillingly romantic story, with Mix playing the part of a dashing gentleman adventurer, and early reports on the picture declare that Mix's versatility and power as an actor in his new role has dazzled and filled with pleasant surprise all those who have seen it.

The atmosphere of the story is unusually varied and colorful, ranging from an American city to the capital of a tropical republic, with ships, a circus in full blast and a royal wedding adding flavor to the whole.

Al St. John and Napoleon, the monk, will provide more comedy in "Fool Days."

Balloon Dance Proves Pleasing Social Affair

Bursting balloons, abundant gaiety and superior music featured the Balloon dance Saturday night at Keller's studio, where "Bill" Starling and the Harming Six entertained more than fifty Glendale and Los Angeles couples. Entertainments of this character have received the hearty approval of lovers of "the light fantastic" in this city.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.—Advertisement.
